PTE0050

This Electric Fence Lightning Diverter and RFI Filter can protect your energiser from damaging lightning surges. It also aids in reducing the electrical interference which can cause a ticking noise on telephones.

This small unit is easily installed and does not need bulky external coils.

Dimensions: 10.7 x 6.7 x 4.5cm

Product features

- contains 3-stage lightning protection elements
- handles lightning surge currents to 3,000 Amps
- contains a filter to reduce spark-induced radio frequency noise
- easy to connect
