

Electric Fencing

PowerProbe® Electric Fence Fault Finder

Overview:

The Pakton PowerProbe® is the original intelligent fault finder, designed to diagnose and hunt down electric fence faults fast. Invented in Australia by the founder of Pakton, it makes fault finding a breeze. The latest generation is rugged, reliable and proudly Australian made.

Features:

- Water proof design
- Integrated (removable) belt clip
- Longer lasting battery
- Ergonomic case design
- Fingers are further away from High Voltage
- Bright red LED direction arrows
- 1 touch operation – Simple to use
- Clear indications of the direction of the fault
- Digital readout which shows fence voltage and current
- No wires, No clips, No tangles, No Shocks!
- Pocket size – Easy to carry
- Displays direction to a “high load” fault, not just current flow
- Will take you right to the fault, not leave you metres short!

Specifications:

Voltage	Display: Range: Accuracy:	2 Digit 10mm LCD 0 – 9.9kV* +/- 10%
Current	Display: Range: Accuracy:	2 Digit 10mm LCD 0-30Amp** +/-10%
Size	Height: Width: Depth:	155 mm 60 mm 24 mm
Weight	Product: Packed:	0.1530kg 0.1960kg

* Not recommended for use at voltages higher than 9.9kV

** Higher currents will not damage the product, but they will read on the display as 30A

Package Contents:

- PowerProbe Fault Finder
- 9V battery, installed
- Instruction Manual

Warranty:

12 month Manufacturers Warranty, negotiable
